H&S POLICY and MANUAL

SECTION 1

INTRODUCTION

The Health and Safety at Work etc. Act 1974 extended health and safety legislation to all areas of work, including higher educational establishments. The Act also imposed duties on all persons involved in the activities of such institutions, accepting that the primary duty rests with the employer or controller of the premises.

It is a legal requirement that the University should provide a safe working environment and ensure that all safe working practices are followed. Equally, everyone connected to the University has similar responsibilities.

The University fully accepts its responsibilities to strive to achieve excellence in all its operations, including health and safety.

To underpin this objective, the University subscribes to the following vision:

To develop a culture and system of management which ensures that the health, safety and welfare of all who use the University premises or services is integral to the planning and operations within the University and which demonstrates a commitment to go beyond simple adherence to its legal requirements.

To underpin this vision, the University has the following strategic goals:

Within the resources available to the University to create the healthiest and safest environment for all the University's stakeholders or persons affected by any activities undertaken on behalf of the University;

To ensure that issues affecting the health, safety and welfare of all involved with the University are fully appreciated and integrated into the management culture of the University;

To ensure that appropriate consideration is given to the inclusion of academically relevant health and safety issues and associated activities within the curriculum;

The main policy making committee for health and safety within the University is the Vice Chancellors Executive Board.

5.3 Membership of the Health and Safety Committee

The membership of the Committee can be determined only by agreement with recognised Trade Unions. To be effective the membership needs to be large enough to reflect different interests but at the same time small enough to be workable. Consequently the following membership has been agreed:

The University Registrar / Clerk to the Governors
Heads of School
Executive Director of Facilities
Executive Director of Human Resources

The statutory construction of the Health and Safety Committee does not allow for the membership of students. However, the President of the Students' Union and one other representative are invited to Committee meetings to participate in discussion on relevant issues. In certain circumstances, they may be asked to withdraw by the Chair at his/her discretion.
